Annex 3-A
Product Specific Rules

Headnotes to the Schedule

1. Pursuant to Article 3.2, this Annex sets out the conditions required for a good to be treated as an originating good.

2. For greater certainty, the origin criteria of "wholly obtained or produced in the territory of the exporting Party" and "produced in the territory of the exporting Party exclusively from originating materials", as provided in Article 3.2.1(a) and 3.2.1(b), apply to all tariff lines.

3. For purposes of interpreting the Product-Specific Rules set out in this Annex:

(a) section means a section of the Harmonized System;

(b) chapter means the first two digits of the tariff classification number under the Harmonized System;

(c) heading means the first four digits of the tariff classification number under the Harmonized System; and

(d) subheading means the first six digits of the tariff classification number under the Harmonized System.

4. Where a good is subject to alternative Product-Specific Rules, the rule will be considered to be met if the good satisfies one of the alternative Product-Specific Rules.

5. A requirement of a change in tariff classification (hereinafter referred to as "CTC" in this Annex) applies only to non-originating materials.

6. For purposes of this Annex:

(a) RVC40 means that the good must have a regional value content (hereinafter referred to as "RVC" in this Annex) of not less than 40 per cent as calculated under Article 3.4;

(b) CC means that all non-originating materials used in the production of the good have undergone a CTC at the two-digit level of the Harmonized System;

(c) CTH means that all non-originating materials used in the production of the good have undergone a CTC at the four-digit level of the Harmonized System;

(d) CTSH means that all non-originating materials used in the production of the good have undergone a CTC at the six-digit level of the Harmonized System; and

(e) WO means wholly obtained or produced in a Party as provided in Article 3.3. For greater certainty, where the rule for a good is WO, the good can still meet the requirements to be treated as an originating good by being produced in the territory of the exporting Party exclusively from originating materials, as provided Article 3.2.1(b).

7. This Annex is based on the Harmonized System as amended on 1 January 2017 (hereinafter referred to as "HS 2017" in this Annex).
